Instructions for the Animopoly game

- Give each player a counter and a dice per game board
- Ask them, or go through the rules on the board. Explain what the corners mean.
- Player throws and moves their counter to the box and then does the task or reads the word. If they do it correctly they can put their points on the score sheet. If they land on an Animal card they have to solve the riddle or do the task.
- First to 100 (or what ever you say wins.)
- Can have up to four people play.
- I have fully editable versions but they are 2 USD as it took me AGES to make this :P
- Hope you enjoy it its worked great in my ESL classroom.

**Do Not
Feed the
Animals**
